

## **The New Human Party Mission Statement**

The New Human Party is a gathering of like-minded people who value the expansion of consciousness, alignment with the Highest Good for all life, and realize our responsibility as co-creators, manifesting our individual and collective realities through our thoughts and resulting vibrations.

We believe that our souls are one with the Divine Source Consciousness we call Love, and that the planet and all creation is conscious and of the same Divine Source. All life, therefore, has the capacity to align with love and live in harmony, according to their highest good.

The members of the New Human Party commit to empowering and promoting the raising and expansion of our personal and collective consciousness.

As a principle of free will, we do not impose our will upon others. Instead, we encourage each person to reach their highest potential, fulfillment, and joy as they step through the challenges in their life, making choices and discovering the higher learnings they can apply to their personal and collective life.

For these reasons, we see ourselves as influencers and manifesters, and do not seek positions of political power over or against others.

We believe it is the purpose of human life to grow and expand in the consciousness of self- love, and self-respect. As we manifest these qualities in all areas of our life, we will shift the vibration of the planet, creating a more co-operative, loving, safe, healthy, peaceful, and grace filled planet.

As members of the New Human Party, we make our individual and collective choices based upon our ever-expanding awareness of our gifts and talents, the healing, creative power of love, the oneness of all that is, and the highest good of all.

How to join. If your consciousness is in agreement with this statement consider your self a member. There is nothing to sign, no dues to pay. No website to keep up. The New Human Party exists in the quantum field and is open to all human beings. Welcome!
